Dietary Requirements

LANDMARK

SOURCING THE RIGHT INGREDIENTS FOR YOU

The requirements of guests are always important, but certain individuals are restricted in their choice of food by religious, medical or personal health reasons.

It is vitally important that we are given accurate information so that we can make these individuals feel welcome and not let them feel that they are putting us out.

Although we can cope with last-minute changes, this is often embarrassing for both the guest and the host.

We are able to create or source a wide range of ethnic or medically approved products. These include Halal meat and Kosher meals. Our Catering Team will be pleased to assist you.

Our food is produced using the following health-conscious techniques:

- Polyunsaturated Vegetable Oil and Margarine
- Semi-skimmed Milk
- Salt is kept to minimum
- Light Mayonnaise and Yoghurt Dressings

When in doubt, please ask the guest as any mistake may cause embarrassment or offence.

FAIRTRADE AND SUSTAINABILITY

We are featuring ethically sourced products such as our coffee and tea across our menu range. Wherever possible we will use chilled tap water, tap water is filtered and decanted.

We are positively sourcing local suppliers wherever possible to contribute towards our ongoing commitment to working in a more sustainable way and reducing our carbon footprint.

We are always happy to accommodate the special dietary requirements of our guests.
