

Coronavirus (COVID-19) Risk Assessment

Luminous House- Milton Keynes

Workplace Health & Safety during Coronavirus (COVID-19)

Current international public health activity is aimed at reducing the spread of the currently circulating novel coronavirus, which causes COVID-19 infection. This coronavirus is a novel agent whereby there is currently no vaccine to the infection. **The two main methods of preventing the spread of infection are hygiene measures and social distancing.**

The novel coronavirus (COVID-19) pandemic has created significant workplace challenges for many organisations.

Landmark has advocated a risk assessment approach using a hierarchy of controls, common in good health and safety management and various pieces of legislation. In the interests of all Landmark colleagues, clients, and visitors it is essential we review the risks in our buildings and mitigate accordingly by adhering to Government guidelines.

Coronavirus (COVID-19) Risk Assessment

Spread of Covid-19 Coronavirus

Risks	Controls
Main Entrances, Lifts, Stairwells & Receptions	
Main Entrances	<p>Social Distancing: Implementation of appropriate signage and queuing systems. Direct visitors to the lounge upon arrival to reduce restrictions on entryway.</p> <p>Hygiene: Frequently cleaning and disinfecting objects and surfaces that are touched regularly particularly in areas of high use such as door handles, access control turnstiles etc.</p>
Lifts & Stairwells	<p>Social Distancing: Suitable signage for directional routes in stairwells and/or utilising alternative stairwells for entry and exit where possible.</p> <p>Hygiene: Frequently cleaning and disinfecting objects and surfaces that are touched regularly particularly lift buttons, handrails, access control.</p>
Receptions	<p>Social Distancing: Implementation of floor signage/mats or free-standing signage to comply with the 2-metre gap recommended by the Public Health Agency.</p> <p>Limit amount of staff working within the same area at any one time (utilise other areas/carry out different tasks).</p>

Coronavirus (COVID-19) Risk Assessment
